**Field Report**

## Field Rules & Improvements

At the last meeting, a couple of concerns were raised. There has been some trash left in the pits area and in the lipo fire containers. Please remember to take with you what you brought in. We do not have trash pickup services at the field. Also, please remember to place your field license on the frequency board when flying. Lastly, the new gate is up! Operation is similar to the old gate. The new gate has supports when it is both open and closed, so all the stress is not on the hinge post.
