Club Event

2018 Holiday Party

Please note: The meeting will start at 6 P.M.

At the next meeting, we will have our annual Holiday Party for club members and their spouses/significant others. The meeting will start an hour earlier at 6 P.M. so we may eat earlier. Please note the new time is for the next meeting only.

The club will provide subs, soda, chips, and water. Please bring a side or dessert to share.

We will need to conduct some business as well during the meeting such as officer nominations. If you would like to volunteer for one of the officer positions of President, Vice President, or Treasurer, please attend the meeting. We will then vote for the nominees in January. The other positions of Secretary, Safety Coordinator, and Newsletter Editor will be appointed in January.

In addition to our usual 50/50 raffle, we will also raffle off a Tower Hobbies Uproar V2 ARF that is new in box.

Monthly Recap

November in Review

The end of the year is approaching! Don't forget to renew your AMA Membership!

Unfortunately, I don't know of any upcoming events for the month of December. The Milwaukee County RC Association Swap Meet is on January 27th. See the next page for the flyer.

The club ended the year with only 53 members, which is down 10 to 15 members over the past few years. At the last meeting, we discussed attending next years Maker Faire, which is usually in September. There were a lot of good ideas mentioned and we should try to get this organized next summer.

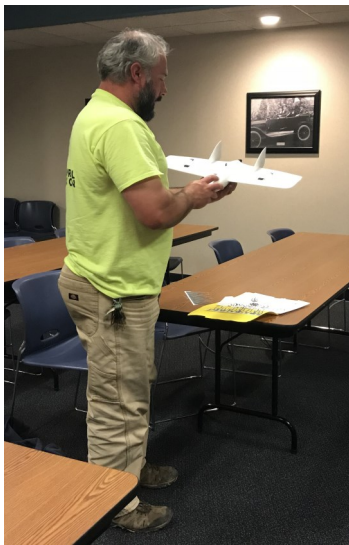

Jeff Wisneski brought in Yuneec hex-copter complete with 4K capable camera. Jeff also had his laptop at the meeting to show the video of the Mustang rescue we reported on last month.

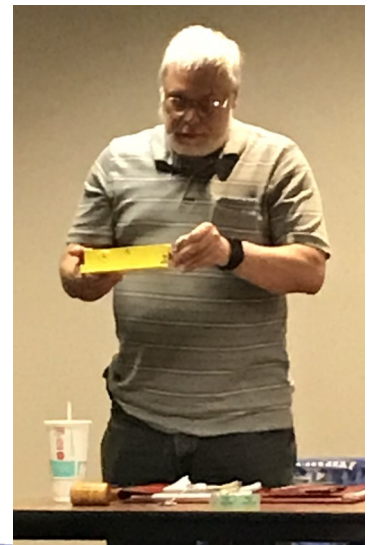

Mike McCullough brought in his second hand Top Flite Sea Fury powered by a DLE 20.

Fred Socha brought in a new project: the Nano Goblin from ReadyMadeRC.com. It is small but fast, electric, push-prop plane and is fully FPV capable. It also uses two elevens for control.

We haven't forgotten about President Jeff's Pulse Jet and he hasn't either. Building the jet is one thing, but there are a whole lot of supporting equipment to go with it. **Jeff Borowski** shows us a home-made quick-release mechanism to quickly launch the jet once the engine is running.

41st ANNUAL

**SUNDAY
JANUARY 27th, 2019**
