Looking Ahead

In the Next Few Months

Snow Clearing

We have a very generous member who has volunteered to plow the driveway at the field if or when we do get a bit of snow. Flying off the snow is very fun, yet cold.

**Officer Nominations**

As we do every year, club officer nominations will be held at the December meeting. Voting will be at the January meeting. Elected positions are President, Vice President, and Treasurer. If you would like to get more involved in how the club runs, please give it some thought to volunteer for one of these positions.

Membership Renewals

It's also that time of year again when many of our AMA memberships are about to expire. It's best not to have a lapse in your membership and not miss a magazine. There's no advantage to renewing AMA mid-year, as the yearly memberships always expire on December 31st.

At the Field

October Fall Flying

▼ We finally got some pictures of **Alan Borowski** flying his new AJ Aircraft ARS 300. I believe last time I saw him at the field, I arrived when he was just packing up. This plane and pilot combination puts on a good show!

▼ **Jon Cseri** flew his BV 141 German reconnaissance plane from WW2. Take a close look at this asymmetrical plane. Many of us at the field didn't think it would fly, but Jon proved us wrong and made a great flight.

▼ **Bob Glowienka** got his engine troubles figured out and got his plane in the air!

▼ **Jim Myszewski** and **Mike McCullough** got the same idea and brought their J3 Cubs to the field. There is over 200 inches of Cub in this picture.
