# The RAMS Horn

**Obituary**

## Jim Myszewski

This month we received some devastating news that fellow club member Jim Myszewski had passed away. Many people knew Jim because he was a regular at the RAMS field, but he also was a

member or participated in events at other clubs such as MARKS, Flying Electrons, and Racine Club. Jim was an excellent builder, a great pilot, and his engines always ran like a Swiss watch. Jim also volunteered much of his time to the club by helping mow the grass, work on our equipment, or take part in any project that came along.

**Madison Area RC Society**

Swap Meet and Fun Fly  
Cottage Grove, WI

[www.marcswi.org](http://www.marcswi.org)

## Jim Myszewski Continued...

Jim was an extraordinary fellow club member and was always willing to help someone tune their engine, look over their plane, or just standby for moral support. And lastly, he was an amazing friend, cracking jokes, reminding you we can still see your plane so go higher, or sharing some cookies that he usually brought along.

Over the last month, many of us have been sharing our stories with each other about Jim. Here is a few of those memories over the years.

- 2019 RAMS Picnic Spot Landing Contest.

- Trying to land on the dot does a number on your landing gear. But it will bend back in place.

▲ 2014: Introducing a Seagull Edge 540

▲ With John Cseri about to land the Spirit of St. Louis

▲ 2019: Showing his new, giant Cub

▲ And bringing that big boy in

▲ 2018: About to fly the Yak

▲ 2021: Checking out Jeff's new Plane

▲ 2020: Going to show us how to spring start

▲ Ta Da!

▲ 2017: Way too many flights on the Zen 50

▲ Doing doughnuts on the ice!

▲ Brave - Clocking the speed of the jet

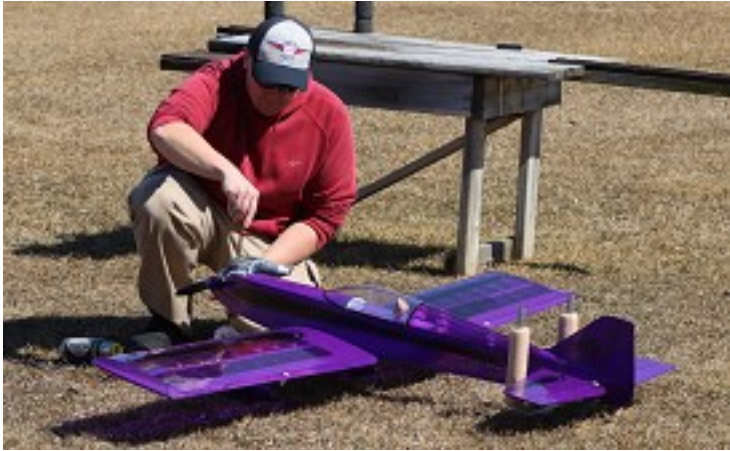

▲ 2017: Helping Tim with his Corsair

Thanks for the memories!

At the Field

# March Flying Days

Here is what has been happening at the field this month!

▲ Jeff Wisneski - Venture 60

▲ Jeff Wisneski - Profile Gee Bee

▲ Angie Traut - Tower Trainer 40

▲ Joe Milanowski - Frozen fingers and Carbon Cub

▲ Phil Schumacher - Extra 300

▲ Dale Abramczyk - Flite Test Stick

### Monthly Recap

## April Meeting Info

For the April meeting, we will be meeting at the Waukesha Airport conference room that Jim Hatzenbeller was able to arrange for us. Plus, we will be hosting a Zoom session from there for those who are unable to attend in person.

The address for the main building at the Waukesha Airport is 2525 Aviation Dr, Waukesha, WI 53188. There is a parking lot right in front of the building, so parking should not be a problem.

Please note that if you are attending the meeting in person, you must bring a model for show and tell. Just kidding. But do if you want to.

### Show and Tell

## Winter Projects continued...

▼ **Jeff Wisneski** is making progress on the BTE Delta Vortex and it is really starting to take shape. Shown here are Jeff's custom hardware for retracts.

▼ **Mike McCullough** is almost ready to start covering his Ace Seamaster .40. It is going to be powered by a OS 55 AX and be covered in Oratex (iron-on fabric).
