The RAMS Horn

Event

RAMS Members' Picnic

The annual RAMS member and family picnic will be held on **Saturday, September 14**, with a rain date on Sunday the 15th.

We will discuss more details at the next meeting and that will get emailed out to the club. Bring your planes and appetite, we hope to see you at the field!

Monthly Recap

August in Review

At the last meeting, we talked about a few things at the field we would like to ask our members to help us with:

- If there are any plastic chairs left out in the sun, please put them under one of the canopies. They tend to get brittle in direct sunlight.
- Remember to replace the charging port covers so the bugs do not clog them up.
- Please lock the gate so the combination dial faces out. A few people have said they have trouble opening the gate when it is reversed.

The MARCS club held their annual float fly at the Bong Recreation Area. It was really a hot day, but not much wind. **Mike McCullough** flew his 20cc Phoenix Models J3 Cub off the water.

At the Field

August Flying

◀ **Doc** hand launches his scratch-built Tigercat. He has made two of these, has a mold for the fuselage, and foam-core fiberglassed wing. It flew awesome and looked great in the air.

▶ **David Gonzalez** maidenied his new Albatross. This one is balsa and electric. Dave also has a smaller one that is foam. Another great looking plane!

◀ **Tim Sorensen** brought his Phoenix Model Waco to the field. It's a real treat to hear its 7 cylinder radial engine and see its big presence in the air.
