Field Improvements

New Bulletin Board

Our new bulletin board is up, replacing the old one that was starting to fall over. Field rules, applications, and first aid are all located here. It looks great and should last many years.

We have removed the frequency board since very few people fly 72 MHz anymore. Therefore, if you do still use a 72 MHz transmitter at the field, please have a way of identifying your channel.

AROUND THE AREA

Upcoming Events

Show and Tell

Models at the October Meeting

Charlie Guardascione brought in his Grob 120. It's a very rare plane especially in this color. It's modeled after the real Grob 120, which is a training and aerobatic aircraft made in Germany.

Jeff Borowski brought in his SAAB Antartica jet. The jet will weigh 17 lbs, have 32 lbs of thrust, thrust vectoring, and canards in front.
