Monthly Recap

August in Review

Last reminder for the RAMS club picnic on **Saturday September 13** (rain date September 14). We will discuss more details at the next meeting.

This month we saw the Root River crest at its highest level ever: 11.7 ft, beating the previous record of 11.0 ft back in 2008. Water was just about to the top of the protection barriers in the pits and went all the way up the driveway, just shy of Oakwood Road. Chairs, picnic tables, and starting stands all floated away wherever the current would take them.

Today, things are mostly back to normal. There is still some water on the West side of the field, but its very flyable.

Full Scale Events

128th Air Refueling Wing

The 128th Air Refueling Wing is excited to announce it will be hosting a Base Open House on **September 13, 10AM - 4PM and September 14, 10AM - 3PM** at the General Mitchell Air National Guard Base, Milwaukee. This is a free two-day event open to the public, which offers a unique opportunity to explore military aircraft and engage with the men and women who execute the 128 ARW's global refueling mission.

This is the first Open House at the 128 ARW since 2012 and it will feature a diverse collection of static displays of multiple aircraft and support vehicles, including the KC-135 Stratotanker, F-35A Lightning II, C-17 Globemaster III and more.

The Open House offers fun for the whole family. Interactive exhibits by installation, local and state organizations will provide hands-on learning experiences for children and adults. Vendors, concessions and other activities will also be available at the event. Information for parking and base access will be publicized as the event nears.

At the Field

August Field Flooding

Here are some more pictures of the historic flood of the field. Thanks to **Mike St. John** for taking these shots with his drone.

RC Events

Warbirds and Classics in Fond du Lac

The Warbirds and Classics event had a good couple of days (Thursday and Friday), but Saturday got washed out after a couple of hours by a pretty sever storm. Here's a few pictures from the event.
