Monthly Recap

March in Review

It's been a pretty so start to the year if you ask me... slower than normal in the winter, but those days are behind us now! The weather is getting better and the field is mostly ready. Some recent field pictures are on the next page. Looking forward to seeing everyone and what you will be bringing to the field!

For show and tell, **Mike St. John** brought in unknown manufacturer Fokker Eindecker. Mike picked it up at our swap meet in West Bend this year. It is electric powered and has excellent rigging detail.

Monthly Recap

March in Review Continued...

Here's a few pictures of the field taken on 3/29. The West side still has standing water, but the East and to the South is very good for flying.

A note on the Hobbytown Swap Meet that is coming up on April 19:

I don't know much about this event, but thought I would add it in there. The store is supposed to list more information on their facebook page. I am also not sure if the items will be more toys and less RC, but since it is nearby, it might be worth a gander.
